This is not a questionnaire. The questions included are for guidance and to act as a prompt. It is not necessary to answer all of the questions or even to use this form to submit your evidence if you find it more convenient not to do so.

## **The role of local authorities in preparing for the opportunities and challenges of an ageing society.**

The Centre for Policy on Ageing has been commissioned by the Local Government Association (LGA) to undertake a call for evidence on the role for Local Government in respect of an ageing society. A cross-cutting Task and Finish group has been established by LGA to consider the opportunities and challenges that an ageing society presents and how local authorities might prepare themselves in the immediate and longer term to respond to these. The intention is for this programme to be completed and its report published by March 2015.

We would welcome your views on the contribution that Local Government can offer, and the changes Local Government should make, to adjust to their local ageing communities and to maximize the opportunities for local citizens and communities to age better. It would be helpful if you can cite examples where you are aware of good or innovatory practice

## Section B

The questions that follow are for guidance and to act as a prompt. It is not necessary to answer all of the questions or even to use this form if you find it more convenient not to do so. We are also happy to receive local reports and evaluations where appropriate.

The call is particularly interested in looking beyond traditional 'care and support' services to strategies that improve older-age quality of life, provide an age-friendly environment and include 'prevention' measures that promote healthy ageing in place.

We would like to hear of any innovative and groundbreaking work that you are doing, or planning to do. Examples may come from any area including strategic planning, commissioning, service design and delivery or activities developed in partnership with local networks of older people and communities.
